

COMPANY POLICY Environmental

Caporn Piling provides foundation solutions to various clients in civil infrastructure, construction and mining industry sectors across Australia. Caporn Piling is committed to ethically and morally responsible environmental outcomes and has developed an Integrated Management System (IMS) compliant with AS/NZS ISO 14001 Environmental System requirements, to minimize any adverse impacts that our activities may have on the environment.

The commitment to managing health environmental issues shall take priority in operational decisions.

To assist in achieving this objective the following strategies shall be implemented: -

- Develop a culture where management of environmental issues is an integral part of or systems and processes
- Develop Environmental Objectives and Targets
- Identify the needs and expectations of our clients and other interested parties
- Apply risk management processes to minimize the potential for environmental harm
- Identify opportunities to provide enhanced environmental outcomes
- Monitor and review the application of the IMS
- Apply continual improvement strategies to our activities, processes and systems
- Comply with project specific environmental requirements

Caporn Piling considers that the involvement and personal commitment to this policy from employees and all other relevant interested parties is fundamental to establishing and maintaining high standards of environmental protection.

Managing Director: Greg Caporn
