

COMPANY POLICY Health & Safety

Caporn Piling provides foundation solutions to various clients in civil infrastructure, construction and mining industry sectors across Australia. Caporn Piling is committed to ethically and morally responsible outcomes and has developed an Integrated Management System (IMS) compliant with AS/NZS 4801 Health & Safety Systems.

Caporn Piling recognize that legislative compliance is a minimum requirement in providing a safe and healthy workplace for all employees, contractors, suppliers, visitors and other interested parties that may be affected by our operations.

The commitment to managing health and safety issues shall take priority in operational decisions.

To assist in achieving this objective the following strategies shall be implemented: -

- Development of Health and Safety Objectives and Targets
- Identify the needs and expectations of our clients and other interested parties
- Apply risk management processes to reduce the level of risk to a level that is as low as is reasonably practicable
- Identify opportunities to provide enhanced health and safety outcomes
- Monitor and review the application of the IMS
- Apply continual improvement strategies to our activities, processes and systems
- Comply with project specific health and safety requirements

Caporn Piling considers that the involvement and personal commitment to this policy from employees and all other relevant interested parties is fundamental to establishing and maintaining high standards of Health and Safety in our workplaces.
