

COMPANY POLICY Quality

Caporn Piling provides foundation solutions to various clients in civil infrastructure, construction and mining industry sectors across Australia. Caporn Piling is committed to ethically and morally responsible outcomes and has developed an Integrated Management System compliant with AS/NZS ISO 9001 Quality management systems – Requirements.

The Company recognises that legal compliance is regarded as a minimum standard and aims to achieve best practice in product and service delivery as well as comply with client requirements and project specific specification.

Caporn Piling is committed to establishing measurable objectives and targets, monitoring levels of compliance and the implementation of continual improvement of the Quality management system.

Caporn Piling shall identify the needs and expectations of our clients and other interested parties and apply our Quality management system accordingly.

Critical inputs and outputs during production will be assessed to determine compliance with applicable requirements (such as project specification) through inspection and testing. This process shall be documented, with corrective actions initiated where required.

All workers and subcontractors shall be advised of this policy during induction and are encouraged to raise any issues regarding quality management including opportunities for improvement. All issues that have a potential to impact on the quality of the final product must be reported to Caporn Piling line manager immediately.

This Quality Policy will be reviewed every two years as part of our Workplace Health, Safety, Quality and Environment Management System Review.

Director Greg Caporn
